COVID-19 lockdown: supporting Trichy’s daily wage sanitation workers
IIHS team, CitizenMatters.in

SCBP conducted its first online capacity building course on Advanced Treatment Technologies for FSSM. It was successfully completed over a course of 10 days by about 50 participants representing government and non-government stakeholders in the WASH sector. Development of the next course in the series is in progress.

To enable dialogue in engaging private entities in the WASH sector, a national capacity building workshop was organised by KPMG-WASHi to bring together representatives from government, donor agencies, entrepreneurs and other organisations.
